ON A PLANET

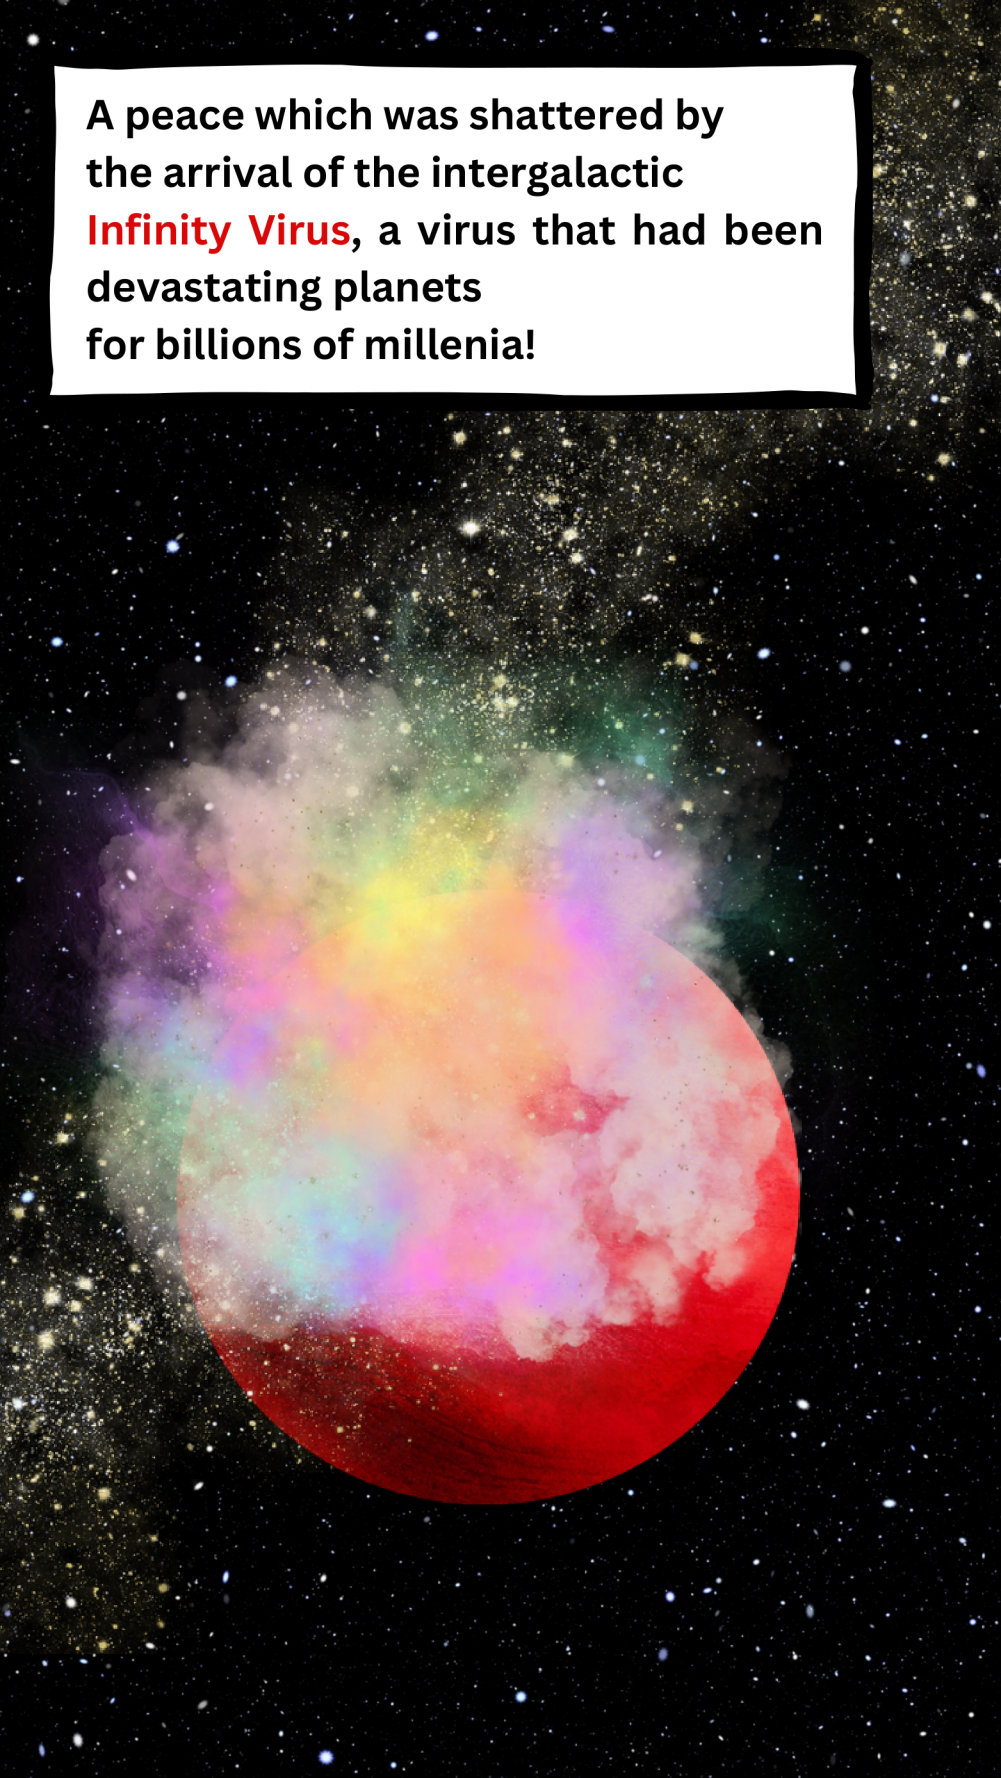

FAR

AWAY

**On the peaceful planet of Rojas,
in a galaxy far far away,
there lived a civilised race of
beings known as the Nemasix.**

A peace which was shattered by the arrival of the intergalactic **Infinity Virus**, a virus that had been devastating planets for billions of millenia!

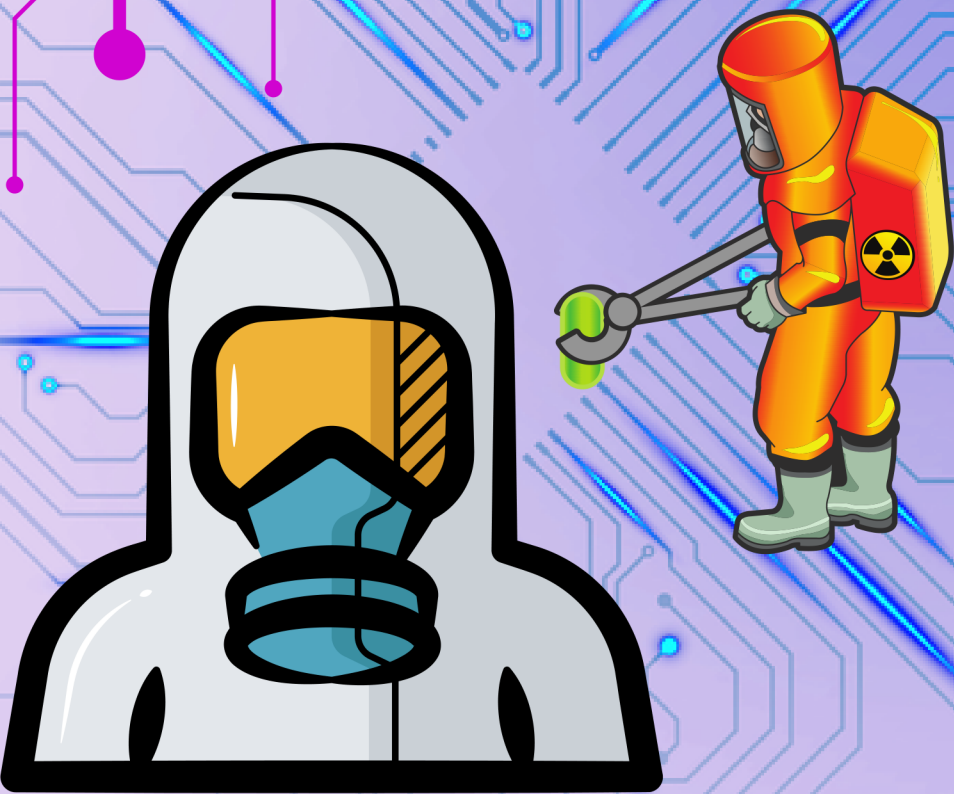

**As the deceptively beautiful
cloud of the Infinity Virus
descended, billions succumbed and
perished...**

The virus appeared immortal, able to adapt instantaneously and survive even in the cold vacuum of space.

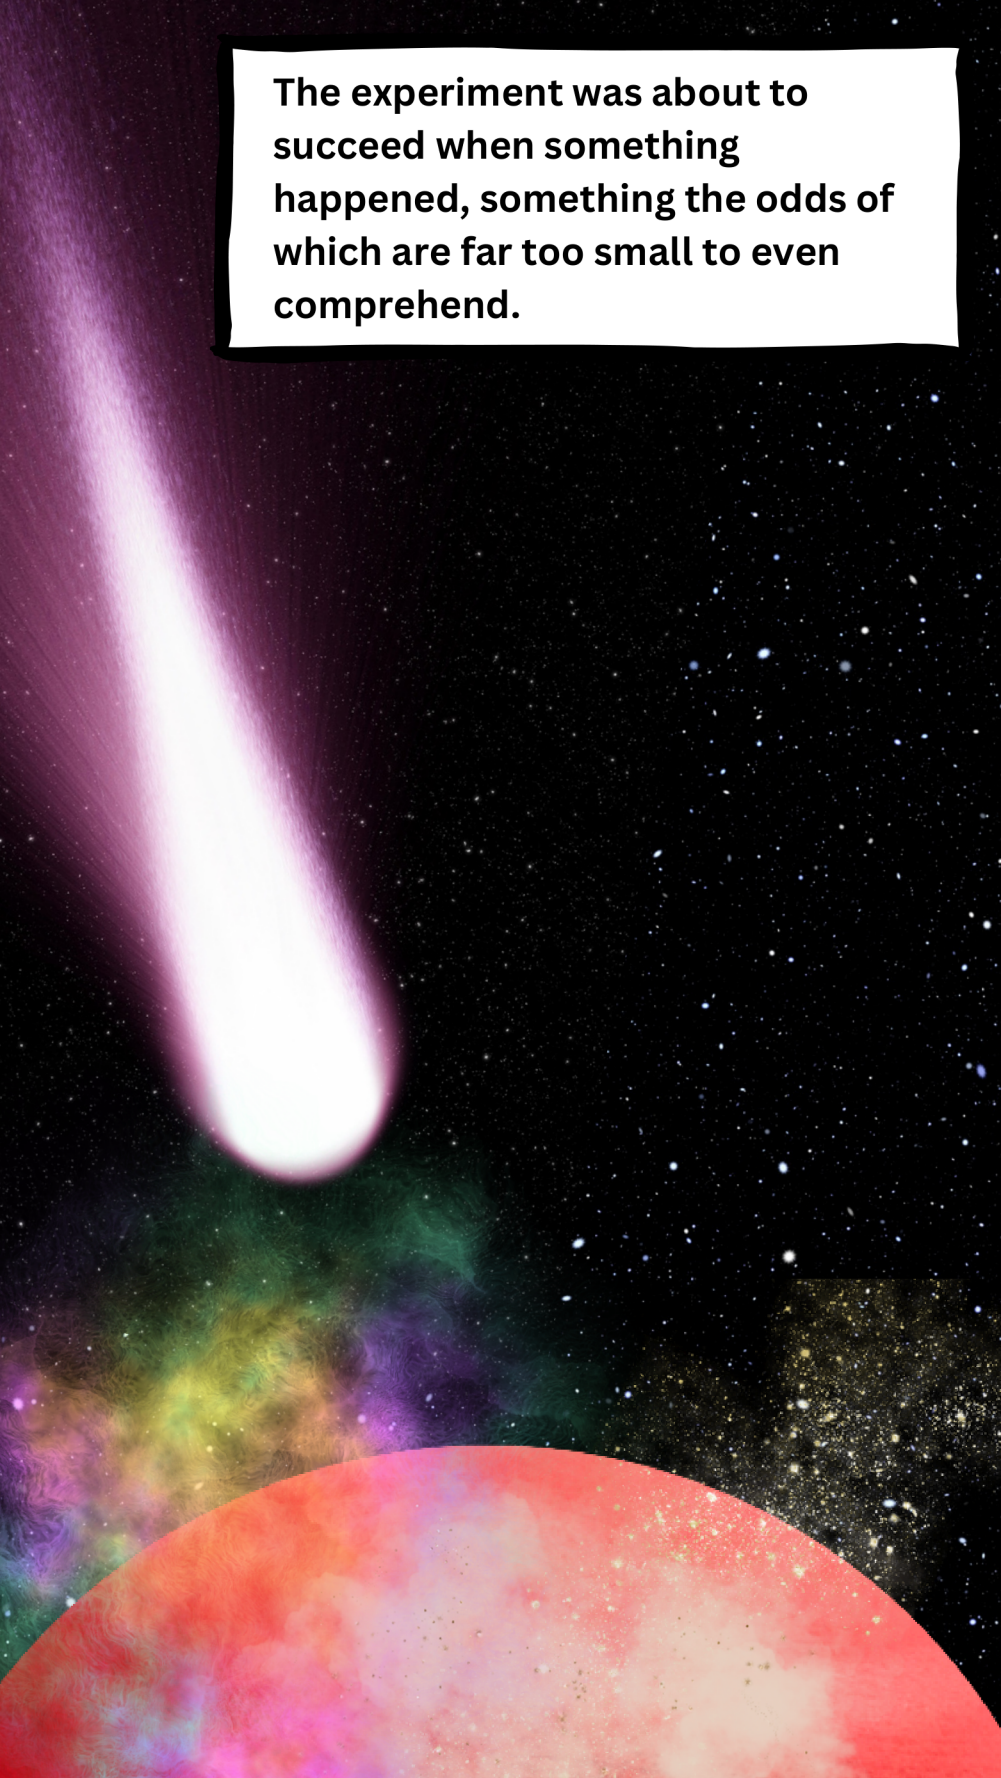

The few that remained worked around the clock to find a cure, using technology far greater than our own...

**Astro took his
position!**

The experiment was about to succeed when something happened, something the odds of which are far too small to even comprehend.

A perfectly timed event, an event that could never be repeated again...

BOOM!

The most powerful virus and the most powerful medicine were fused into Astro's DNA by the most powerful explosion in history!

KA-POW!

Imbued by the power of the virus, Astro's body was now able to adapt immediately to defeat anything!

Our test subject had not only survived, he had become invincible!

**Astro was about to awake
to a world that he would
no longer recognise.**

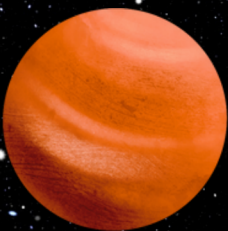

He could not save his people but his mission was clear, he could not allow anything like this to affect anyone else ever again!

Once Astro had mastered his new abilities of super strength, super speed, flight, laser heat vision and power roar, he was ready to leave his planet in search of others to help.

Astro set course for the nearest planet in distress to fight **MONSTERS**, **BEASTS**, **VIRUSES** and **ANYTHING ELSE** tormenting the innocent!

Dragon X

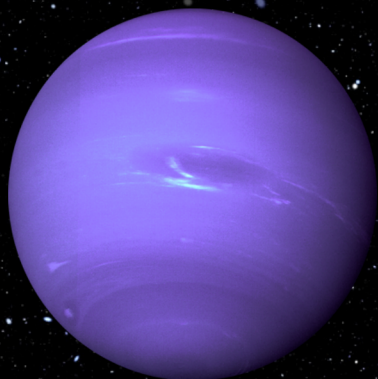

Sea
Beast 114

**Infinity
Virus**

After eradicating unimaginable threats all over the universe, there was one final destination in need left...

Earth...

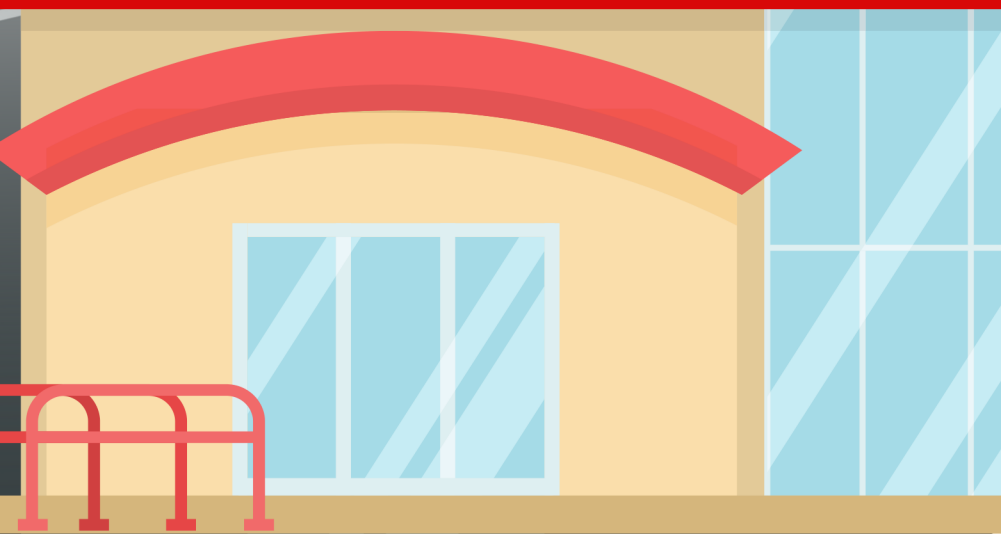

The planet was being ravaged by none other than a variant of the dreaded Infinity Virus!

**And he thought, where
better to start than the
Lion City itself, Singapore!**

SINGMEDICAL CLINIC

Dr. Stryker!
You need to make
more of your special
vaccine quick, the
virus is getting out of
control!

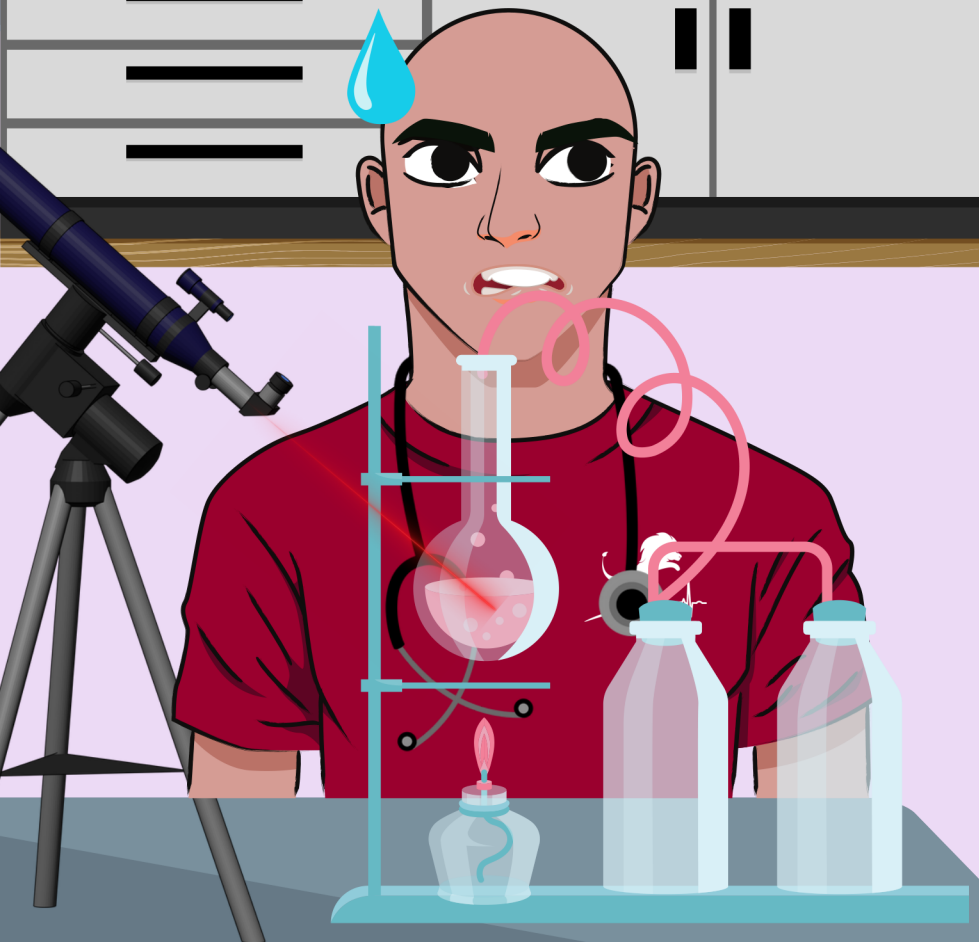

Asidah

Zelinna

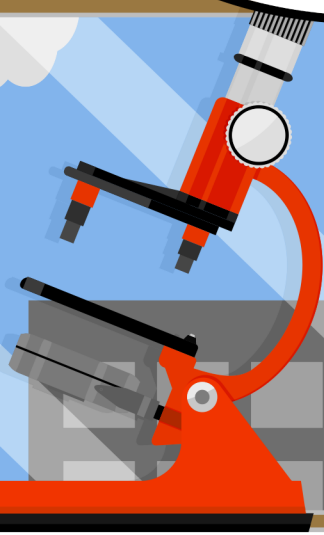

Juliana, look at this!
The results are off the charts!
This isn't a normal virus, it has
properties similar to the Infinity
Virus I did my research paper on!
At this rate of multiplication,
the entire planet will be infected
within hours!!!

**One step ahead of you!
Look at these
pictures I took
under the electron
microscope!**

**1 billion billion
times magnification...**

**It really is a variant of
the dreaded
Infinity Virus!!**

**Sebastian!!!
This is an emergency!
Quick, get the
anti-matter ray out of
storage NOW!**

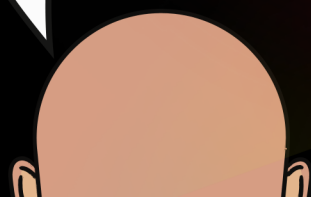

PCR

**I got it
guys!!!!**

**Just hope I'm not too late!!
For the fate of the world,
here goes everything!**

**The anti-matter ray had failed!
Without more time to reconfigure
the ray to the correct frequency,
the virus continued to spread like a
wildfire! All hope appeared to be lost...**

When....

ROAR!!!

**Wait!!! Who are you?
What are you doing??
Don't hurt them,
they're just sick!!!**

The name is
Astro
and I wasn't
hurting them,
I was curing
them!

HOORAY

WooHoo!

**My roar is able to neutralise the virus but
I can't save everyone...**

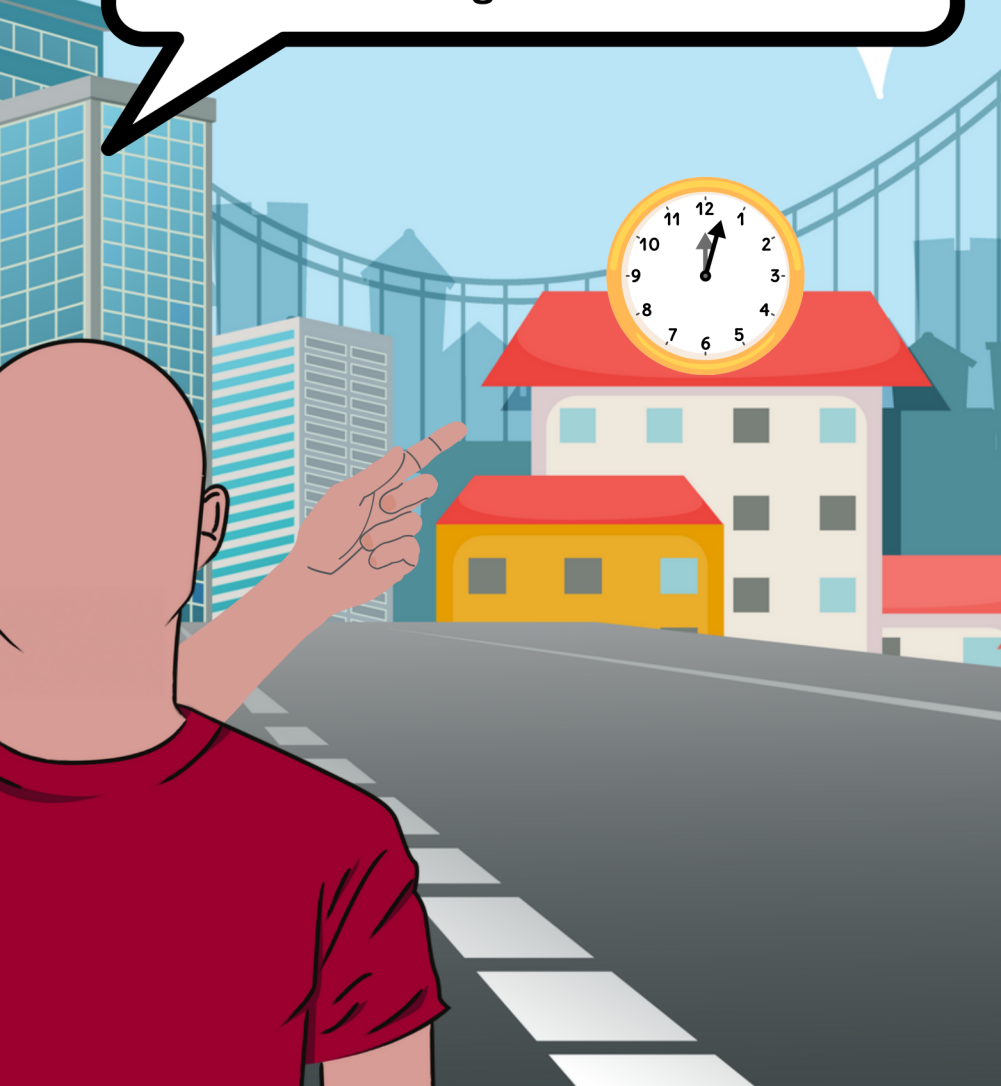

**The infection has spread too far and wide
on this planet and even with my light
speed, I won't be able to reach everyone
in time! There will be millions who won't
make it!**

**Wait! There's still time!
I analysed your roar, the vibration
frequency is perfectly in sync with
the Infinity Virus!**

**If I reverse the
polarity, I can easily amplify the
signal so your roar can reach everyone in
the world without you even leaving
Singapore!**

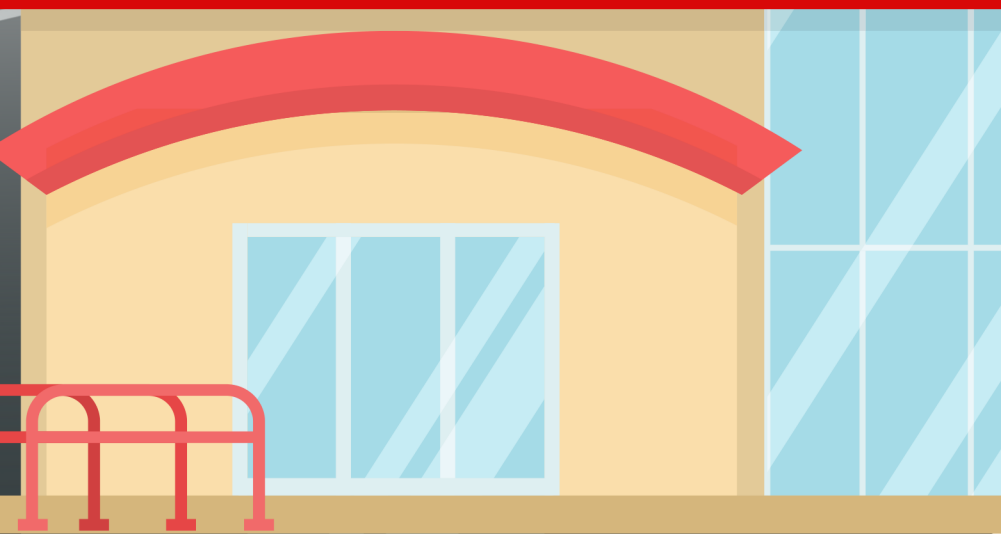

But I've got to act fast!

**Back at
SingMedical Clinic!**

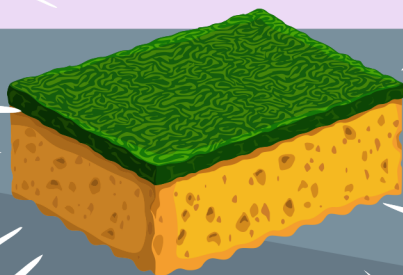

SINGMEDICAL CLINIC

Almost done!!!!

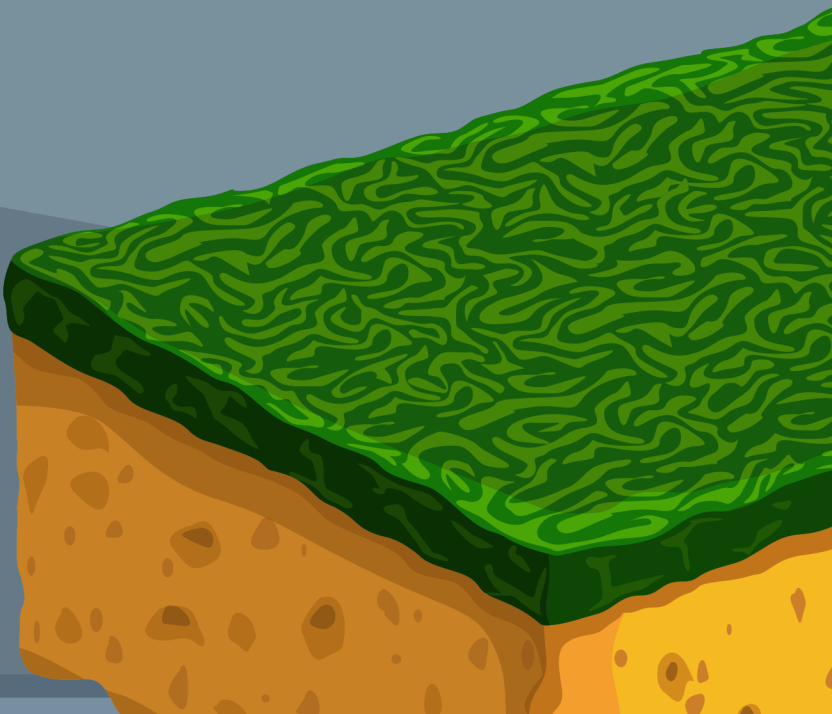

It's ready!!!!

Doc,
it's just a
SPONGE!!!!

**No it's not!
There's no time to explain
but this is some of the most
advanced
nano-technology in the world
and I just made it out of a box
of scraps!**

**All Astro has to do is roar
through the sponge, I mean
device, and it will amplify the
signal ten million times!**

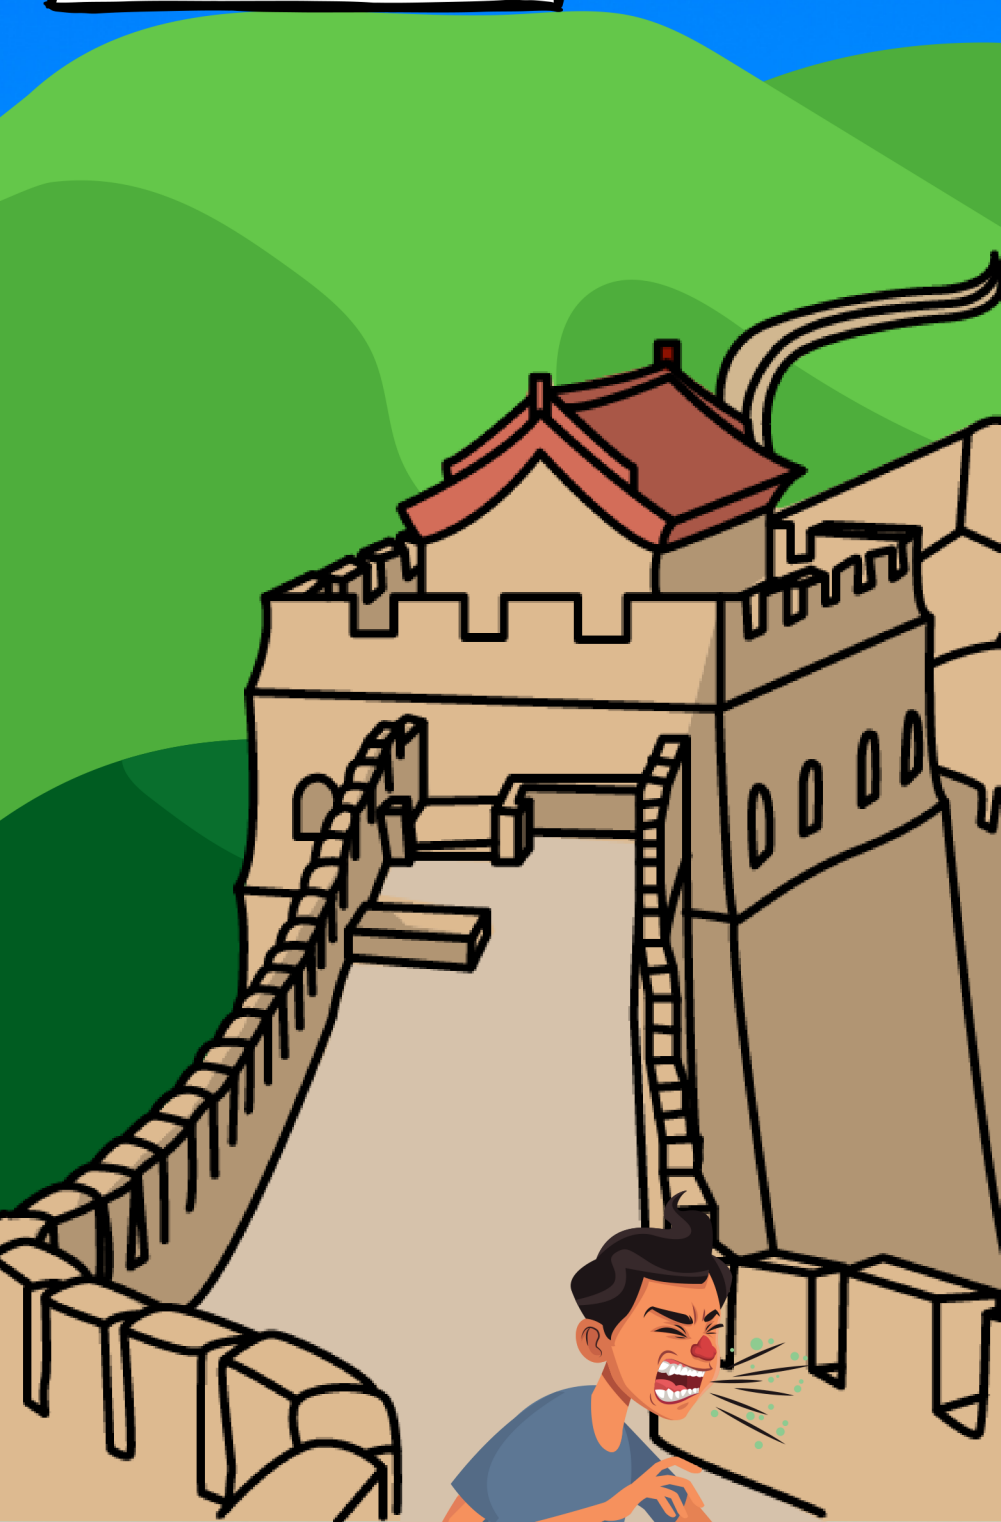

**Ignore the appearance and
let's go and save some lives!!!**

Trust me, I'm a doctor!

While the virus starts innocently with simple flu-like symptoms...

It quickly
becomes fatal!

There were
seconds left...

Before the whole world became infected!

ASTRO!!!

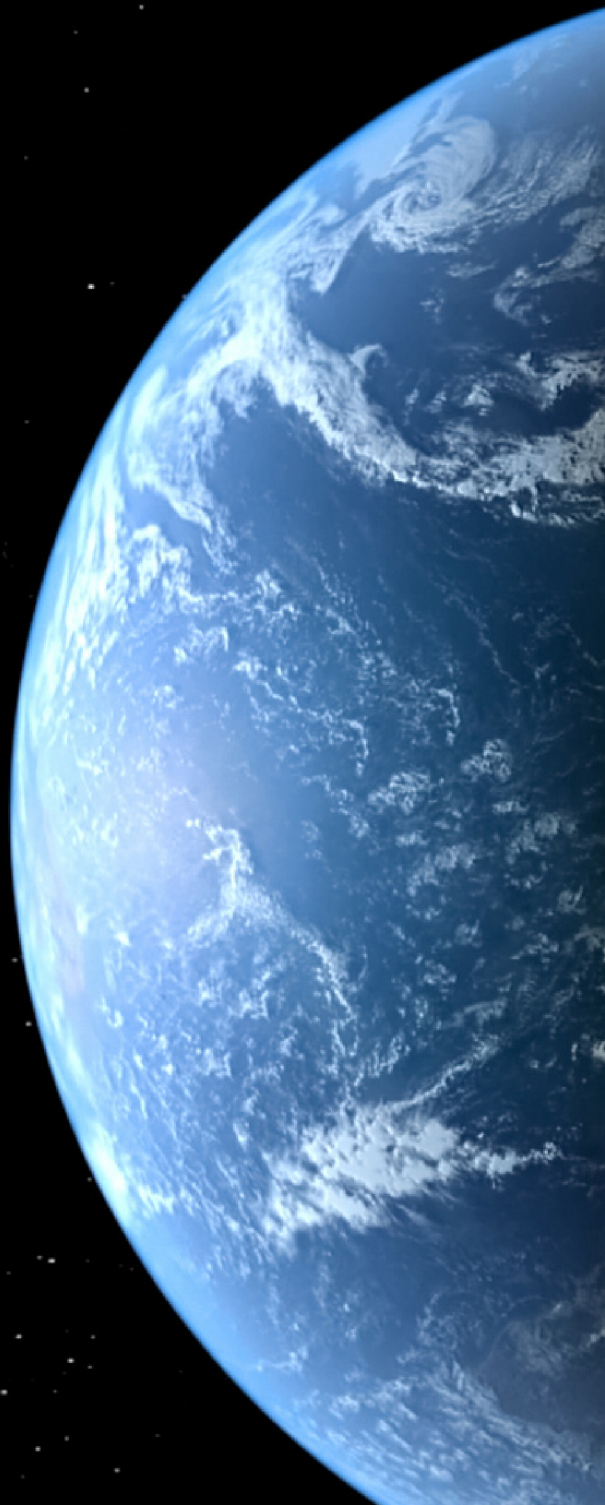

ROAR!!!

**The calm before
the ROAR!**

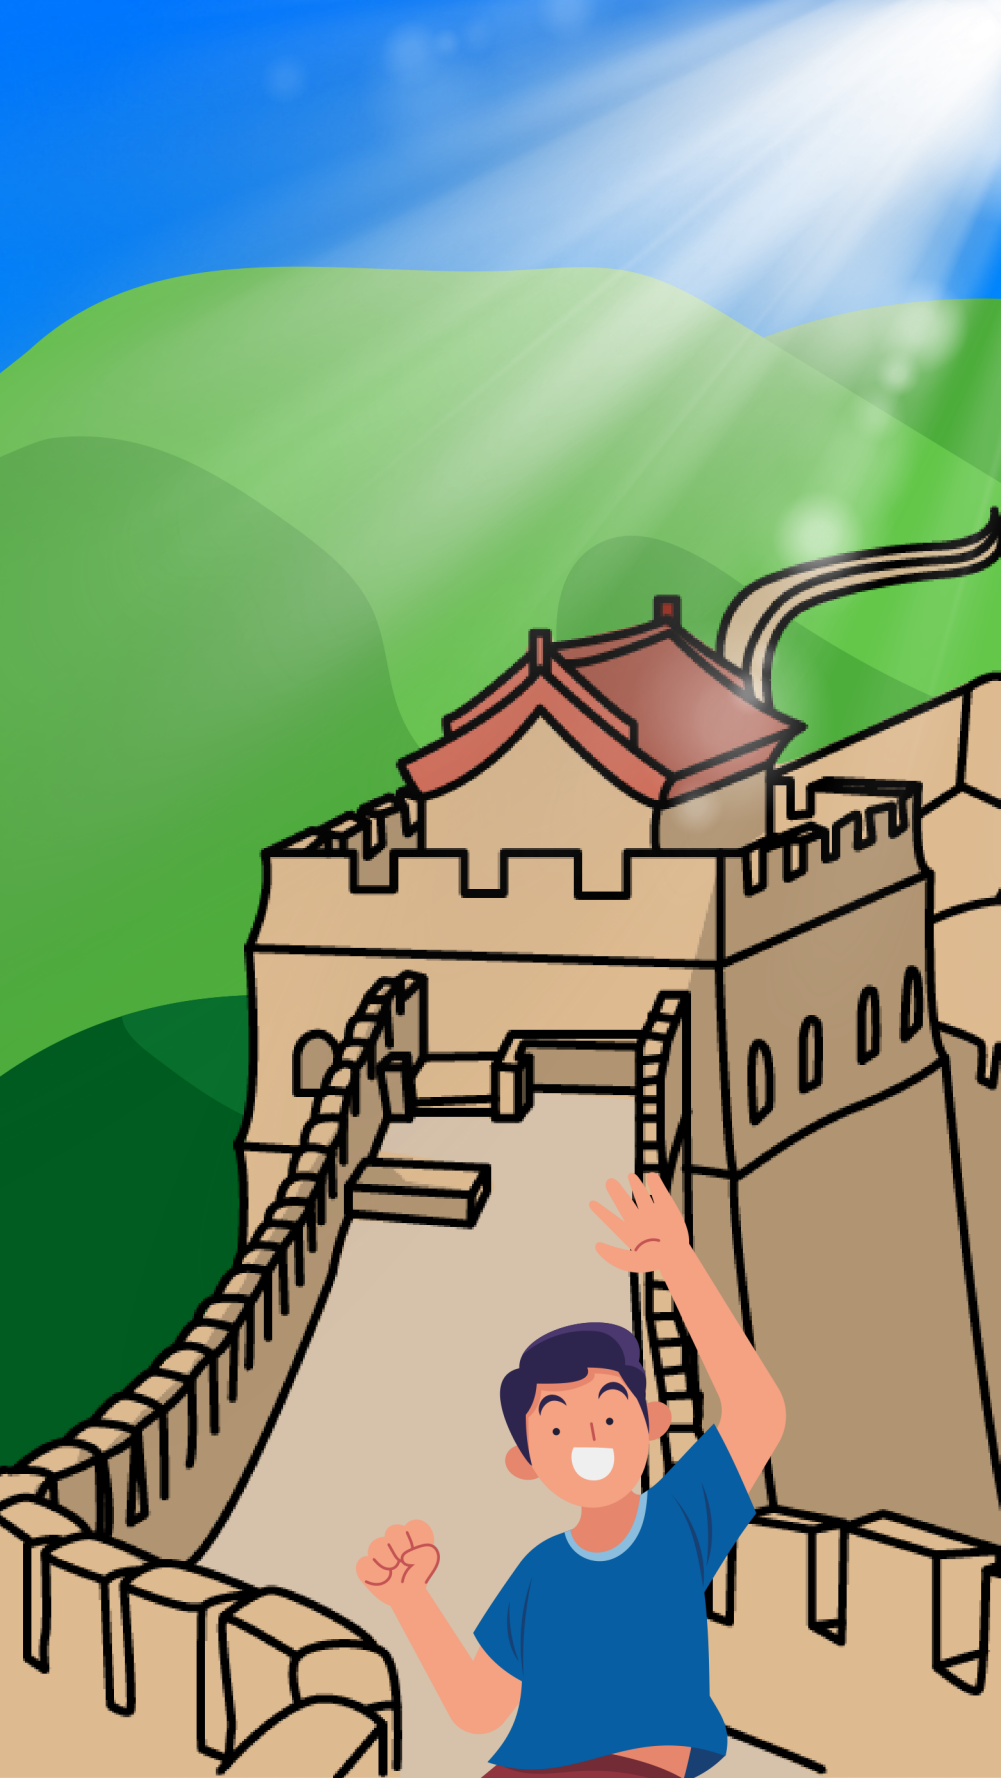

The roar was so powerful, it nearly tore through the fabric of space!

A comic book style sound effect graphic. The word "BOOM!" is written in a bold, yellow, sans-serif font with a black outline and a drop shadow. The text is set against a red, jagged, starburst background with a black border and a halftone dot pattern. The graphic is positioned in the lower right quadrant of the image, appearing to be struck by a blue laser beam from the left.

BOOM!

**As the roar shockwaves
traversed the globe,
people immediately
recovered!**

**Everyone in the
world celebrated!**

**And everyone was
cheering the same
thing...**

Astro-ROAR!!!

Astro-ROAR!!!

Astro-ROAR!!!

ASTRO-ROAR!!!!

It had been a long time
since our hero had felt so
loved and welcomed...

SINGAPORE MEDICAL CLINIC

Astro-ROAR! That's a pretty catchy name!

So what do you say buddy, want to join the SingMedical team?

We could do with your help!

While we might've won this battle, there's still lots of viruses and people who need our help out there!

I'm in!

**Welcome
to
the team,
Astro-ROAR!!!!**

**And that's how the
legendary SingMedical
team was born...**

To the dismay
of all germs
everywhere!!!

The image features a dark, starry background with a gradient of blue and black. The text "THE END" is centered and rendered in a bold, sans-serif font. The letters are white with a vibrant pink glow around them. "THE" is positioned above "END".

THE
END

To be continued
at a SingMedical
clinic near you...
